Company Mission

Most companies outside the Virtual Enterprise world still spend a lot of money on their fossil fuels and factories to make Tee shirts, while still giving off harmful gases to the earth. GeoMerch has a solution to this problem. By getting the materials straight from the earth and producing them in a much safer process, we are keeping the earth cleaner than most companies would. With our solution to these common day problems that hurt our earth every day, GeoMerch starts this change today and we will not go unnoticed. Each and every one of our employees will leave a difference on this earth. By the end of the business year GeoMerch would like to be one of the top companies in Virtual Enterprise. GeoMerch does not just want to be successful but also wants to make a difference in the world we live in and make it a safe environment. We strive to grow and spread our company worldwide and let everyone have their own message on a shirt.

Industry Trends

In the organic clothing industry, there is not very much competition. Also, there is virtually no competition when it comes to making custom organic clothing. In the VE world, GeoMerch, Inc. is the only Organic clothing company. With this advantage we stick out like a sore thumb and we are slowly making our way to the top.

Event Information

On January 9th GeoMerch, Inc. attended the trade show at LIU Post. In this trade show GeoMerch, Inc. made decent profits. We also had no competition at the trade show because we are the only organic custom clothing company. Our employees strive to give you the simplest transaction process possible. GeoMerch, Inc. would like to give everyone who made a purchase a huge thanks because we could not have made these profits without you.
